

Welcome to the National Infrastructure Commission for Wales

“The National
Infrastructure
Commission for
Wales gives advice
on the
infrastructure
Wales needs”

A black and white photograph of a rural landscape. The scene shows rolling hills and a valley. In the foreground, there are fields with rows of trees or hedges. In the middle ground, a small pond is visible. The background features more hills under a cloudy sky.

The background of the book cover is a photograph of a calm river or stream flowing through a landscape of tall, golden-brown reeds. The sky is blue with scattered white clouds, and several power line towers are visible in the distance. A semi-transparent green rectangular box is overlaid on the upper part of the image, containing the title text.

Imagining Wales in 2100: Stories and Essays

This series of essays has been commissioned in collaboration with the [Institute of Welsh Affairs](#) to envision Wales in the long term, and to help understand what the implications for infrastructure might be in 2136.

[Read the whole series](#)

[Introducing the essays](#)

This post, written by David Clubb, describes the importance of the very long term when considering immediate challenges.

Dear Alice,

So this place is yours now.
It's a handful, but nothing worth
doing is easy. The land is more than
just dirt. If you look after it, it
will feed you forever. You are a smart
one, I know you will be okay come
rain or shine. And remember, a
business is only as good as its
people, so treat them well.
Our job is to plant seeds, so our
grandkids got to enjoy the fruit.
So eat well Alice, and keep planting
those seeds. Because how we
eat today feeds tomorrow.

Love,
Grandma -
