Welcome to Al bahya park by - Hasan Ali

As green as an emerald
As beautiful as the sunset in the horizon.
As neat like a ruler written down on paper
As breathtaking as a futuristic skyscraper.

As unimaginable like heaven
So supernatural as a mountain
As precious as a ruby.
As modern as a spaceship.
As unparcchaseable as a ticket
to neptune.

Grange Gardens

I like ^{Grange} Gardens because of the football pitch because I love to play football and play in the park when I don't have the right shoes to play in the astro.

Grange Gardens the place to be/when life is in the deep. The community is together to play football oh so much glee / I feel so free it feels like a peace shopping

spree/ and the birds are speaking
to me.

The world ~~is~~ is rapidly changing through time,
I won't be able to tell you everything going
on in ~~any~~ rhyme, Our greatest enemy
is probably time, Water rushing to our
feet there may be nothing known as heat,
~~at~~ the future is the seed we planted
yesterday, The fruit we pick tomorrow
we might not even be able to pick.
Look outside in able trees down~~ed~~,
Smiles turn into frowns, what~~is~~ is this
world we made ourselves? What is
this world we made ourselves? We left
the word core, the future can be seen
every where, Greed wasn't ever a thing we
had to need, the future is a total
mystery so please listen to this story, Ice
cap slowly melt before our eyes,

Animals were always next, each one dies before the very next, we cannot neglect the future, the future is onto before we can forget, the future is decisions based on love, rather fear the future is unfolding, always coming but never here, listen reader, have you heard of extinction? that would happen to us, it might be a little prediction, but it could come true this might come out the blue let me give you a little clue... this world isn't permanent and so aren't you.
